The Friedrich Schiller University Jena, Germany, connects people and ideas, science and economy, institutions of higher education and external research organizations. Being rooted in the heart of Germany and having worldwide bonds, the university, covering all disciplines, characterizes the city of Jena as a future-oriented and cosmopolitan location together with its partners.

The Cluster of Excellence Balance of the Microverse (microverse-cluster.de) invites applications for a

**Junior Group Leader (f/m/d)**

to head a group on

**Causal Inference**

The group will be part of the Department of Mathematics and Computer Science and will be associated with the Michael-Stifel-Center Jena for Data-Driven and Simulation Science (mscj.uni-jena.de).

The successful candidate will focus on the development of methods and tools for the identification of cause-effect relations. The approaches should be geared towards the needs of the Cluster of Excellence and should be applied first to well-defined microbial model systems and subsequently extended towards the integrative analysis of multimodal data. The concerted efforts in the Cluster generate a diversity of data from microbial consortia in various habitats. The successful candidate will contribute to the structured doctoral training program. The position may further involve teaching in relevant degree programs (BSc and MSc Computer Science and Bioinformatics, MSc in Computational and Data Science).

**We expect:**
- a PhD (or equivalent) in Computer Science, Bioinformatics or closely related fields
- a strong research track in causal inference or closely related topics
- a track record in successful interdisciplinary cooperation or a demonstrated willingness and ability to work in such a setting
- the ability to work creatively and independently towards developing your own research group
- an integrative and cooperative personality with enthusiasm for actively participating in the dynamic Microverse community
- excellent English communication skills, both written and spoken

**We offer:**
- funding to build a group with a postdoc and a PhD student in addition to the group head
- remuneration in accordance with the Collective Agreement for the Public Sector of the Federal States (TV-L) depending on the personal qualifications up to salary scale E15
- a highly communicative atmosphere within a scientific network providing top-level research facilities
- attractive staff benefits, for instance, contributions to the employee savings plan, season ticket loans for public transport, pension scheme (VBL)
- a university scheme for promoting your health and well-being, and a family-friendly working environment with flexible working options

The full-time junior group leader position is initially limited to five years; an extension might be possible subject to availability of funds. The Friedrich Schiller University Jena is an equal opportunity employer and part-time contracts can be discussed. Disabled persons with comparable qualifications will receive preferential status.

For further information please contact Prof. Birgitta König-Ries (birgitta.koenig-ries@uni-jena.de)
Applications in English should comprise a cover letter, detailed curriculum vitae, copies of academic certificates, research agenda, a list of publications with selected reprints, a list of successful grant applications and a description of teaching experience. Please submit your application as a single PDF document via email attachment to microverse@uni-jena.de.
